

Smarter OLAs for Smarter Decisions

EVOLVE Cloud Services, in partnership with Amazon Web Services, offers a fully funded **Optimization & Licensing Assessment (OLA)** designed to help organizations reduce Microsoft licensing costs, mitigate audit risks, and lower AWS spend. This engagement clarifies how licensing changes affect your environment, guides volume license use in AWS, and delivers insights for Windows and SQL Server optimization, equipping you with the roadmap and cost modeling needed for renewals or cloud migrations.

Our Services

✓ Standard OLA:

- **EC2 Shared Tenancy (Rightsized)**
- **EC2 Shared Dedicated Host (Rightsized)**
- **RDS Classic or Custom Modeling**
- **End User Computing**
Personal, Pools, Core & AppStream
- **VMware Renewal - Potential Cost Savings** ✓ *Additional Modeling Included: NC2 or EVS*
- **NC2 (Nutanix Cloud Clusters)**
- **EVS (Elastic VMware Service)**
(more accurate than EVS calculator)

✓ New offerings:

- **ReluTech Integration**
Broadcom hardware buyback & renewal quotes
- **Storage Assessment**
Current availability: Incorporating AWS Storage Assessment numbers into single OLA
- ✓ **Coming in February 2026**
- **Evolve's own Storage Assessment**
NetApp-powered
- **Optimize CPU**
Included in Standard OLA

Why Choose Us?

Strategic AWS OLA Partner

Evolve provides unbiased assessments and has **delivered 3,500+ AWS-funded OLAs** since 2020.

Tool Agnostic

Can use outputs from any tool (Cloudamize, Migration Evaluator, etc.) or customer provided data/flat files.

Partner Friendly

Evolve supports, never competes with partners, having **delivered OLAs for 200+ System Integrators Partners**.

Evolve's Instance Mapper

Optimizes models by an additional 47% beyond rightsizing tools using any utilization data.
